January 29, 2019

Dear Wright State colleagues,

The Purdue chapter of the American Association of University Professors sends solidarity greetings. We stand with your faculty in its strike against the University administration. We support your demands for better wages and working conditions for faculty at Wright State, and your fight for a better educational environment for your students. Your struggle emblemizes the need for faculty across the country to work together in coalition to fight for its interests.

Respectfully,

American Association of University Professors - Purdue University (West Lafayette) Chapter
West Lafayette, Indiana
